Honorable Caprice Cospers  
339th District Court  
1300 Franklin  
Houston, TX 77001

Re: Perry Allen Austin (Cause No. 870377)

Dear Judge Cospers:

The above named defendant was interviewed and examined on September 20, 2001 pursuant to an order from your court for competency evaluation. The defendant was told the purpose of the evaluation at the beginning of the interview. He was also told that a report would be sent to the court concerning what was discussed and that consequently, he could refuse to answer any questions and could end the interview at any time. He indicated that he understood this and went on to provide sufficient information to justify the conclusions in this report and fulfill the requirements of the court order. The evaluation consisted of a clinical interview and a mental status examination.

The defendant has been placed in segregation for reasons he does not understand, especially since he has had no disruptive incidents since he was brought to the jail from prison.

Mr. Austin had no trouble providing relevant and coherent background information. For example he stated that he was born on June 23, 1959 in Tacoma, Washington but was raised in several locations because his father was in the military. He stated that his parents separated in the 1980's when he was in prison and that he has had little or no contact with them since that time. (He noted that his father has recently sent him some money but will not correspond with him.) He does not know his mother's current location and has no contact with his three sisters.

Mr. Austin completed a GED in 1977 while serving in the United States Army. He served between 1976 and 1977 and received a General Discharge under honorable conditions. His occupational history is quite limited because he has spent many of his adult years in prison; however, he has worked as a warehouse clerk. When asked to discuss his police and arrest history in more detail, he refused to do so. He did state, however, that he is currently serving a 50-year sentence in the Texas Department of Corrections. In 1992 he received 30 years for a sexual assault and was later given an additional 20 years for assault with a

012750

Psychological Consultants to Medicine, Law, Business & Education

deadly weapon that occurred while he was already an inmate in TDC. He is currently serving on the Hughes Unit in Gatesville, Texas.

When asked about the use of street drugs, Mr. Austin stated that he did use illegal chemicals when he was younger but has not done anything recently. He then admitted, however, that he has been able to obtain alcohol in the prison and will drink it "when I can get it." He also is able to obtain illegally purchased psychotropic medication from other inmates in the prison and will overdose on this medication in order to become intoxicated.

Mr. Austin knows that he is now charged with capital murder and pointed out that he has already confessed to the crime. He stated that it involves an incident that occurred in 1992 during which he claims that he killed a 9-year old boy. He stated that his conscience began bothering him to the point that he finally wrote a letter to a homicide detective about what he had done. He stated that the detective came to the prison, read his Miranda rights to him and interviewed him about the offense. Following this he was charged with the crime (February, 2001). Mr. Austin stated that he simply wanted to confess to the crime because "it was bothering me" and because he believes it is at least partly the reason why he was using the contraband pills and alcohol more heavily. He continues to believe that he did the right thing in this respect.

The defendant knew the number of the court in which he is charged and the judge's name. He has two court-appointed attorneys he named as "Marshall Mac Arnold" and "Mr. Loper or Roper". He stated that he has talked to the first attorney about four times and the second attorney about two times in person. He believes that he can understand these attorneys satisfactorily and has no communication problems with them. He is aware that if he is found guilty of capital murder, he will receive either "death or life in prison... with my background, it will most likely be death."

Mr. Austin was then asked why he has decided to defend himself. He stated that the reason he "fired my lawyers" is "because I'm guilty...I'm not trying to make excuses". He went on to point out that he believes that trying to defend himself would be "like trying to get out of what I did". He stated that he will be willing to testify if the prosecution wishes it.

Mr. Austin is not sure about his next court date but has received and read his indictment papers. He was then asked what his Miranda rights were and he stated "you have a right to remain

silent...anything you say can and will be used against you...I have a right to an attorney...if I can't afford one, one will be appointed to me."

Mental status examination reveals the defendant to be alert, well-oriented, and able to communicate his ideas without difficulty. No peculiar ideas or bizarre verbalizations were elicited. Both his mood and affect seemed to be appropriate to the material being discussed. His use of grammar and syntax suggests intellectual capacity in the average range (I.Q.= 95-100). There was no evidence of disorganization, confusion, nor any other significant difficulties in communication. He seemed to have no trouble understanding questions, providing useful information, and following directions. Both recent and remote memory seemed to be intact for the most part. There was no evidence of hallucinations, delusions, apprehension nor any other unusual behaviors typically taken as indicative of severe mental illness or mental defect. He did reveal some emotion as he discussed his current legal situation and his guilty conscience, but he did not lose composure. The defendant seemed to have a reasonable understanding of his current legal situation and is able to answer questions appropriately concerning the proceedings taking place. The general impression obtained from the mental status examination and clinical interview reveals the defendant to be in satisfactory possession of his faculties at this time.

In view of the present results obtained, this defendant is believed to be COMPETENT to stand trial. He demonstrated a rational as well as factual understanding of the charges against him. He also demonstrated the ability to consult with his attorney with a reasonable degree of rational understanding.
